

# Accessing your Employee Success Coach:

Much of the information you seek is in our “Employee Library.” There you will find information about subjects related to your questions. If you are not finding the information you need, or cannot find it on the internet, then you will reach out to your coach.

Your coach will set up meetings with you. The first will be after you have completed one week of employment and then again after 60 days. The last meeting will be two weeks prior to the conclusion of the contract. We will also be in communication with your employer at the same intervals for their feedback on your progress. Together we will find the path to your success.
